

AGREEMENT ON
POSTAGE RATESReached by President Taft and
Secretary Hitchcock.

ACCORDING TO ADVERTISING

Magazines and Other Periodicals Will Have Their Postage Rates Set, If Congress Acts Favorably on the Recommendations of the President. Newspapers Not to Be Affected by the Proposed Change.

Washington, Nov. 1.—President Taft and Postmaster General Hitchcock reached an agreement on the recommendations of the president will make to congress regarding a change in the second class postage rates as affecting magazines and other periodicals.

Mr. Taft will recommend that the magazines be required to pay the present rate of 1 cent a pound on all advertising matter and a much higher rate to be determined later, on the advertising pages. Each magazine will be required to send a copy of its current issue to the postoffice department each week, or month, as the case may be. There the publication will be dissected. The reading matter and the advertising sections will be separately weighed and the amount of postage computed by the number of magazines sent out.

Newspapers will not be affected. The average haul of the newspaper is but 200 miles, while the average haul of the magazine is 1,100 miles.

Mr. Hitchcock told the president that the plan of separating the reading and advertising matter in the magazines is entirely feasible, and he believed it to be the proper solution of the problem. The hauling of magazines in the mail has proved costly to the government, and both the president and the postmaster general believe it has entered largely into the deficit shown each year in the post office department.

Deficit Largely Reduced.

This deficit has been largely reduced during the past year, a saving of \$11,000,000 having been reported as a result of economies put into effect by Mr. Hitchcock. The adoption of a new rate for the magazines, Mr. Hitchcock believes, will entirely wipe out the deficit and put the postal establishment on a self-sustaining basis.

President Taft is looking forward to a 1-cent rate for letter postage and hopes to recommend it before he leaves the White House. He hopes also to back up his recommendation with figures and estimates which will show that letter postage at this rate still will yield a profit to the government.

The establishment of the proposed new rates as to magazines, the president believes, will do much to bring about the penny postage plan. At the same time he thinks the magazines will be compelled to pay only their just share in the postal expense.

The president is determined to push his plan for placing second and third class postmasters under the civil service. He will make the recommendation to congress in his forthcoming message and hopes for favorable action. In addition to taking these classes of postmasters entirely out of politics the president believes the move will prove economical.

FALLS INTO A BURNING BOG

St. Paul Child Probably Fatally Injured.

St. Paul, Nov. 1.—The Van Buren street burning bog has claimed another victim. He is little Anton Derk, four years old, and he probably was fatally burned when he fell from a fence on the edge and rolled down the steep bank into the fire. The bog has been burning since early in the spring and it is known that four other people have been injured in three months.

The baby had toddled to the edge of the walk and became interested in watching the fire in the smoldering mass below. He climbed the board fence to get a better view and perched on the top board in huge delight. He had no thought of danger.

Suddenly his foot slipped on the boards and he rolled down the steep bank for ten feet to the surface of the bog. The crust gave way beneath his weight and he was buried in the fire. He would have perished in a few minutes but for the quick work of two older boys, who crawled to the edge and pulled him out.

His left arm and hand were terribly burned and Dr. H. T. Nippert, who was called and who sent the child to the city hospital, thinks he has only even chances for recovery.

Fatally Wounded With Rifle.

Marquette, Wis., Nov. 1.—John Schoblaske was probably fatally wounded by the accidental discharge of a rifle. His companion was found to have him a rifle when the firearm was accidentally discharged, one side of Schoblaske's head being shattered by the bullet. He is in a hospital here.

Mexican Trade Increases.

In 1910 Mexico's imports were \$97,428,700 gold, an increase of \$19,000,000, and her exports \$130,028,000, an increase of \$14,500,000.

FRANK H. HITCHCOCK.

Agrees With the President
as to New Rates of Postage.

FOR THE TRAINING OF BOYS

Y. M. C. A. Speakers Advocate the Scout Movement.

Toronto, Ont., Nov. 1.—The best methods to be employed in safeguarding the morals and molding the characters of the boys of a continent, taken up at the afternoon session of the thirty-seventh annual convention of the Y. M. C. A., proved to be one of the most interesting subjects brought up this year. General discussion of the topic was in charge of Seth Sprague Terry of New York. Dr. Graham Taylor of Chicago spoke on "Saving Them From Delinquency."

Industrialism and civic conditions, he said, were sources of delinquency, but above all else every child should enjoy the blessing of being born right. Colonel W. B. Wakefield of London, Eng., and Ernest Thompson Seton advocated the Boy Scout movement as medium for training character in these days of highly specialized civilization and for saving boys from shiftlessness and ignorance.

TRAFFIC WELL SUSTAINED

Land Values in North Dakota Not Affected by Light Crop.

Fergus Falls, Minn., Nov. 1.—L. La Rue, traveling passenger agent for the Great Northern railway, says that the crop shortage in North Dakota has not affected railway traffic to as great an extent as generally expected.

There is no wheat to be hauled from some localities, but the farmers have money saved from the good crops of former years, and are buying goods almost as freely as before, so that the importation of merchandise is keeping up and the volume of passenger traffic is fair.

Mr. La Rue also says that the shortage has not reduced land prices in North Dakota. The people are all hopeful and are looking forward to next year, and if the 1911 crop is a good one, this year's failure will be very quickly forgotten.

PACKERS INVADING CANADA

Americans Go After New Territory in Western Provinces.

Edmonton, Alta., Nov. 1.—American packers are invading Western Canada with a view to controlling the trade. Under various names branch companies have been formed and information is to the effect that the companies are owned by Chicago and other American packing concerns.

The Swifts have been identified with the packing business in Western Canada for several years. The latest company to seek incorporation is Armour's Limited, with head offices at Calgary, Alta. Its incorporators are law students, and its capital \$2,000,000. The money invested in these various concerns known to be American is over \$50,000,000.

STRANGE NOMENCLATURE.

Henry XXIV. of Perplexing Reuss-Koestritz Family Dead.

Prince Henry XXIV. of Reuss-Koestritz, who died the other day, belonged to a family whose system of nomenclature aroused the wrath of Carlyle. In "Frederick the Great" he speaks of "those strange Reusses who always call themselves Henry and now amount to Henry the Eightieth and Odd, with side branches likewise called Henry, whose nomenclature is the despair of mankind and worse than that of the Naples Lazzaroni, who candidly have no names."

The dead prince was the head of the first branch of the "appanaged house," of the younger line of the numerous Reuss family, all the male members of which since the eleventh century have borne the Christian name of Henry, in honor of their famous ancestor, the Emperor Henry VI., but in 1701 it was decided that the figures should not run higher than 100, beginning afterward again at 1.

As all the Reuss princes are distinguished by numerals in the order of their birth, it so happened that the father of the dead prince was Henry IV., and he was now succeeded by his son Henry XXXIX., both born in 1891. At present the youngest male member of the family is Henry XLVII., born in 1897.

The other branch calls the first prince born in a century Henry I. and goes on until the century is ended, when they also start again.

PRINCE TO SHOOT TIGERS.

Thrilling Hunt Proposed For Germany's Future Kaiser.

Crown Prince Frederick William, greatly disappointed, as Berlin dispatches say he is, by the collapse of the arrangements for a visit to the United States in the course of his world tour, will find all the compensation the London government can give him in the shape of an exceedingly elaborate reception when he reaches India.

Under instructions from Lord John Morley, the Calcutta authorities are drawing up a program bound to delight the young German. His principal attractions will be a military review and a big hunting expedition. The prince having expressed a strong desire to kill a tiger or two from the back of an elephant.

The hunting party, numbering 500, will go to a region where the man-eaters are the largest and fiercest of their class.

BLAME PUT ON
STATE BOARDSRock Island Official Says They
Annoy Railroads.

CAUSE MOST OF THE TROUBLE

Stanley H. Johnson Asserts That State Commissions Create Controversies Between the Railroads and the Shippers—Commissioner Lane Scores Roads for Transferring Burdens to the Government Commission.

Chicago, Nov. 1.—Stanley H. Johnson, assistant freight traffic manager of the Rock Island lines, testified before the interstate commerce commission that certain state railroad commissions are causing most of the trouble between the shippers and the railroads. Johnson's statement was made to Commissioners Franklin K. Lane and E. E. Clark, who intimated their belief the railroads are not satisfied with regulation because it limits their power to increase revenues.

The hearing on the proposed advances in rates will soon be concluded and the evidence will then be reviewed in Washington before a decision is announced.

In conducting the examination of Johnson, Commissioner Lane at once delved into the actions of the railroads previous to the existence of the various commerce commissions.

"Why didn't you get up to this reasonable rate before these interfering commissions came into existence?" asked Commissioner Lane.

"State commissions are an embarrassment and all the trouble between the shippers and the railroads could be adjusted in satisfactory manner if the different state commissions were out of the way," replied Johnson.

"You are not satisfied with the regulation because it limits your power to increase your revenue," said Commissioner Lane, "and you were not satisfied with nonregulation prior to 1906 because you say that led to bankruptcy—now what will satisfy you? In 1906 you had an opportunity to set the rates at a higher figure, yet your own and other roads were placed in the hands of receivers. Now we come along—"

Might Get Along Famously.

"Yes," interrupted Johnson, "we might get along famously with your honors and colleagues if we did not have all these state commissions to contend with."

"Is not a fact," said Commissioner Lane, "that you are laying these burdens on the interstate commerce commission which were laid upon you by the state commission?"

"I do not see it that way," replied the witness. "There is a conflict between the state and federal bodies to control the railroads. If the responsibility was not divided it would be simplified."

General Dickinson of counsel for the railroad took the witness in hand at this juncture.

"Did you advance all commodity rates?" asked General Dickinson.

"We did not," replied Johnson.

"Did you advance any class rates?"

"We did not."

"Why were advances made on the particular articles mentioned?"

"To divide the traffic into three classes. First, a class rate; second, to list slight movements as lightweight commodities, and third, to list the heavy commodities. Excepting grain and coal, none of the heavy commodities have been advanced. Generally speaking, the advances were made on manufacturing articles. The increase affects 12.23 per cent of the tonnage of our road."

Rate decisions at Denver, Spokane and other Western points will cost the Chicago, Burlington and Quincy \$800,000 a year.

The old rebating system reduced the freight revenue of the Burlington from 3 to 5 per cent.

The Burlington is not in as good a condition to accumulate a surplus now as it was ten years ago.

These were among the statements made at the rate hearing by Claude G. Burnham, vice president of the Burlington, who was the first witness.

FORMER SPEAKER RAY DEAD

La Crosse Loses a Wealthy Lumberman and Banker.

La Crosse, Wis., Nov. 1.—George H. Ray, a wealthy lumberman and banker and former speaker of the Wisconsin assembly, died after a lingering illness.

George H. Ray was born at St. Stephens, New Brunswick, Oct. 4, 1847. He was educated in the common schools of his native town and came to this country at the age of eighteen, residing in Maine until 1878, when he moved to La Crosse. He served as chairman of the county board, member of the state assembly for several terms and one term as speaker. He was president of the State bank of La Crosse.

Night Rush for Land.

Spokane, Wash., Nov. 1.—The little town of Tekoa, Wash., just west of the Idaho boundary, kept Halloween with a picturesque stampede for lands. Three hundred homeseekers gathered to rush for the unclaimed lands of the Coeur d'Alene reservation, which were thrown open at midnight. Some of the settlers had small cabins mounted on wagon trucks ready to be transferred to their homesteads.

HERBERT L. SATTERLEE.

J. P. Morgan's Son-in-Law Has
Very Serious Eye Trouble

SIGHT SERIOUSLY AFFECTED

Morgan's Son-in-Law Suffers as Result of Overwork.

New York, Nov. 1.—It has become known that Herbert L. Satterlee of the law firm of Hayden & Satterlee and son-in-law of J. P. Morgan, is threatened with the loss of the sight of an eye and that for the last two weeks he has been confined in a darkened room in his country home at Highland Falls.

For a time fears were entertained that the sight of both eyes would be affected, but physicians in charge of the case believe that the chief danger has passed and that the eye will be restored to its normal condition.

Too great application to his work and reading by artificial light are ascribed as the causes of his impaired sight.

ROOSEVELT MAKES
SEVERAL SPEECHES

Talks in Manhattan in Behalf of Stimson.

New York, Nov. 1.—Theodore Roosevelt swept almost from end to end of Manhattan, delivering nine speeches in behalf of Henry L. Stimson, the Republican nominee for governor. At the nine stops he spoke fifteen minutes each, following close on the trail of Mr. Stimson, who had preceded him with an equal number of brief talks. Both made Tammany Hall the brunt of attack.

In the heart of the East Side, when Colonel Roosevelt entered he was introduced as the "greatest citizen of the world." After an opening thrust at Tammany Hall he said:

"I ask for the support of the men of the East Side because we are fighting your fight. We are trying to shape conditions so that every decent man can have the opportunity to show the stuff that is in him, so that any oppressed man may come here and have the chance to bring up himself and those dependent upon him under fair and honest treatment."

"A good deal is being said about new nationalism. Now, new nationalism is simply the effort to apply old moralities to new and changed conditions, so as to secure for the workman reasonable wages under healthy conditions and not too long hours."

At the second stop, still on the lower East Side, Colonel Roosevelt charged that those who are supporting Tammany Hall and the Democratic ticket "are the men who have been foremost in endeavoring to nullify the child labor law, and who have protested against the regulation of the hours of labor."

More in the center of the city, but still on the East Side, at the Murray Hill Lyceum, Colonel Roosevelt said: "I have not an element of power except the belief of a number of my fellow citizens that I stand for what is decent and straight, and that I want to bring nearer the day when there will be honesty and fair dealing between man and man. My power vanishes when my fellow citizens cease to believe in what is straight and honest. I can fight for you, but I cannot gain the victory for you. I can point out the way, but you've got to do the fighting yourself. Now is your opportunity to take advantage of it."

Another Wreck Victim Dead.

Montevideo, Minn., Nov. 1.—Herman Rahfeld, injured stockman, died at the hospital from concussion of the brain and other injuries received in the train wreck near here. All the others are doing well. No coroner's inquest has been held yet, owing to the absence of the coroner.

Infantile Paralysis Spreading.

Dickinson, N. D., Nov. 1.—Several new cases of infantile paralysis have developed in the southwestern section of the state. The first fatal case of that nature to be found in Stark county was that of Harry Hudson, sixteen years old, of Taylor. The health authorities in the several slope counties are taking precautions against the spread of the disease, and it is believed that they have the situation so well in hand no serious trouble will follow.

Ralph Johnstone Sets a Mark
for Aviators.

IN A BABY WRIGHT MACHINE

American Contestant in Aviation Meet at Belmont Park Attains an Altitude of Nine Thousand, Seven Hundred and Fourteen Feet. Beating the Record Made by Wynmalon of Holland.

New York, Nov. 1.—A "baby" Wright "cloudster," with Ralph Johnstone at the helm, glided gracefully to earth in the twilight at the close of the international aviation meet at Belmont park with the barograph registering a new world's record for altitude. The little machine of only thirty-five-horsepower had been up 9,714 feet, exceeding by 528 feet the height attained in France on Oct. 1 by Henry W. Wynmalon of Holland.

But Johnstone's sky climbing feat was not the only notable incident of the closing day of the meet. Claude Grahame-White, the athletic Britisher, who carries away the Gordon Bennett trophy, which takes the next international tournament to England, sharpened the sporting appetite with a challenge to John B. Moisant of Chicago for another race from the park around the statue of Liberty in New York harbor and return.

Moisant, who won \$10,000 for his fast flight around the statue, refused to consider the challenge unless Grahame-White agreed to fly in a fifty-horsepower Bleriot, a machine equal in power to his own.

Declines to Entertain Offer.

Grahame-White, who made the statue flight in a 100-horsepower Bleriot, declined to entertain this counter offer, so that the chance for another flight over Brooklyn is off.

Then Grahame-White, denied another chance for a visit to Miss Liberty, sent a thrill through the spectators when at the close of a speed race with J. A. D. McCurdy of the Curtiss team his propeller snapped, his monoplane dug into the ground in front of the grandstand, turned twice and buried the aviator underneath. He was uninjured and won the race.

Moisant's winning of the \$2,000 distance prize offered by the Aero Club of America was the other big event of the day. He traveled approximately eighty-seven and a half miles in two hours. In landing, after winning the event, he smashed his propeller and broke a running wheel, but escaped unscathed.

"I was in a pretty purple haze up there," said Johnstone after he had finished his record breaking flight. "and, say, but it was cold. I had a couple of sweaters on besides my rubber suit and face mask, but then at times I felt as if freezing."

"Several times I lost complete sight of the earth, but when I shot clear of the haze I could see away down below buildings and residences which looked like toy blocks."

The Wright brothers were jubilant at Johnstone's success. It was the first time he had ever flown their tiny machine and he had set a new mark for aviators of the world.

DAMAGES FROM DAUGHTER

Mother Awarded Large Sum by Milwaukee Jury.

Milwaukee, Nov. 1.—That Mrs. Jonna Huesselman is entitled to \$9,800 damages from her daughter, the wife of Dr. Wilhelm Becker, was the verdict of the jury in the circuit court of Judge W. J. Turner in a \$25,000 alienation of affections suit of mother against daughter.

Mrs. Huesselman and Dr. Becker were married in Chicago on March 17, 1900. She was then forty-six years old. He was thirty-one. She had two daughters. One of them was Mrs. Hattie Bott, aged twenty-six at that time. Mrs. Bott was then living in St. Paul. Her husband was Dr. Henry C. Bott.

Some time after the marriage Mrs. Bott came to Milwaukee to visit at the home of her mother and her new stepfather. The result was that on Sept. 29, 1905, Mrs. Becker and the doctor separated.

She alleges that he compelled her to leave, threatening to shoot her. On Nov. 3, 1906, Mrs. Huesselman got a divorce from the doctor. Her former name, Huesselman, was restored.

On Nov. 9, 1906, Mrs. Bott, the present Mrs. Becker, began suit for divorce from Dr. Bott. She got the divorce Nov. 2, 1907. Five days later, according to testimony, Mrs. Bott and her stepfather were married.

Opening a Harbor.

Each spring the steamer Corwin, formerly a revenue cutter built strongly of oak, with an iron sheathed bow and iron stern for bucking ice, breaks the winter blockade at Nome and places that Alaskan city in touch with the rest of the world. This year she sails from Seattle on May 10 for her first trip of the season. After pounding her way through the ice she anchors seven or eight miles off shore and sleds go out to her with a brass band and many prominent citizens, who board the vessel and search out all the fresh fruit and vegetables they can find.

ALL EYES ON BRAINERD

There can be but little doubt that the Northern Minnesota Development association is organized for only such purposes which will benefit the entire state. The organization is also intended to see that immediate legislation is undertaken, and for that reason the people attending the December meeting in Brainerd will see and hear the necessary prepared bills as they will be presented for vote as soon as the legislature convenes this coming session.

Although the platform of this organization was well rounded into form many months ago, recent events in the state have given rise to conditions which demand immediate attention. The Northern Minnesota Development association has recognized these conditions and is losing no time to meet them and prepare for them. On November 11th there will be a meeting in Bemidji of some of its members who will frame up a measure regarding fire protection, and as these members will be well posted on matters pertaining to forestry protection, a great deal will be accomplished to hasten the proper legislative action which will greatly remedy the existing deficiencies and difficulties in the operating of our present forestry department.

This sounds like business. Thus far we have not heard any noise from any opponents, and this because those opposing are instigated by personal motives only and therefore can not be heard midst the thunder of our organization. All eyes on Brainerd now.

Blackhawks Entertain

The Blackhawks entertained last night in honor of Mr. Clifton Albright and Winifred Smith, whose marriage is to occur early in November. The occasion partook of the nature of a Halloween party and the Blackhawks and their lady friends were present to enjoy the function. The club rooms were handsomely decorated, Jack-o-lanterns predominating. Cards were played and a musical program was rendered. Some of the old fashioned Halloween games of bobbing for apples and picking raisins from the pan of flour were indulged in and caused great merriment.

A luncheon was served, covers being laid for forty. The dainty favors at the table included witch's brooms and witch's caps filled with confectionery.

Notice

To the Voters of Crow Wing County: I hereby announce myself as an independent candidate for coroner, and respectfully solicit the support of all voters at the general election Nov. 8th.

Respectfully,
C. A. NELSON.

For sore eyes, cold sores, chapped hands, or sprains, it's supreme. Indefatigable for Piles. Only 25c at all druggists. 115

Bids Wanted

Sealed bids will be received by the undersigned on or before Wednesday, Nov. 9th, to install a steam or hot water heating plant in the Lake Shore hotel at Walker, a 20-room building. The right to reject any or all bids is reserved.

12543 C. CARLSON,
Walker, Minn.

(Adv't.)

The Judgeship

Sentiment in favor of Judge Stanton's re-election seems very pronounced in every county in the district and his friends are confidently predicting a majority for him that will run into the thousands.

As in his campaign of two years ago, he has been dignified and gentlemanly, replying upon his standing as a citizen and a lawyer, and upon his record as a judge to commend him to the voters of the district. Unlike his opponent, who has made use of the columns of a newspaper, published by a disgruntled litigant at Grand Rapids, to attack his character and motives, Judge Stanton has accorded to

his opponent that fair, generous treatment which every citizen is so desirous shall govern all political contests, and especially when the judiciary is involved.

The bench should be placed above politics. The election of Judge Stanton will demonstrate that the people of this district favor and endorse this popular belief.

This judicial district is the largest in the state. It is one of the most important in the state. It is important because of its great natural resources, its immense possibilities, its rapidly growing population and its unusually large volume of legal business.

Such conditions demand experience, ability and character on the bench. In such a judicial district the election of a judge is more than a mere political contest. It becomes a matter of vital public concern, overshadowing all partisan considerations.

The almost unanimous endorsement of Judge Stanton's candidacy by the lawyers of the district constitutes the most unusual and strongest endorsement possible for a candidate for a judicial place to have, and it reflects to a marked degree the high esteem in which Judge Stanton is held by the voters generally.

The statement made in the Grand Rapids Independent to the effect that the lawyers signed this endorsement through coercion is so palpably false and malicious as to be regarded as ridiculous and absurd by every fair-minded person, and is a gross and unwarranted reflection upon the honor and integrity of the lawyers of this district.—The Bemidji Daily Pioneer.

BIG MINING DEAL IS MADE

and Steel Co., of Chicago, Leases 120 Acres Three Miles From Crosby

AL INVOLVES \$10,000,000 Few Years Ago the Lessors Paid But \$25 an Acre For This Land

The Duluth News-Tribune under a verwood date line describes one of the biggest mining deals ever negotiated on the Cuyuna iron range, involving an ore tonnage of approximately 20,000,000 tons at a royalty fifty cents a ton. The article reads:

"One of the most important mining deals ever consummated on the Cuyuna range was concluded today when the Inland Steel company of Chicago, took a lease of 120 acres of land in range 46-29, about three miles west of Crosby. The deal involves, roughly speaking, about \$10,000,000, for the steel company is to pay a royalty of fifty cents a ton and it is popularly believed that the ore tonnage will approximate 20,000,000 tons. The lease is made from Gust Carlson and H. Nelson of Duluth, and Thomas Erick of Hibbing. They own the fee in the land, which consists of 120 acres, and it is said, have shown up one of the largest and best mines on the Cuyuna range. Reports that the deal was in progress have been heard for several days.

"The entire work of proving up the range iron ore tonnage, on the 120 acres described has been done by Mr. Carlson. He is a man that has had large experience and has accumulated large fortune in mineral explorations on the Mesaba range, and in other mining district. His success on the Cuyuna will receive much attention all over this district, and elsewhere.

"Messrs. Carlson, Nelson and York, acquired the 120 acres of land which was brought to them millions, for \$25 an acre a few years ago. Mr. Carlson was one of the early investors in lands on the Cuyuna. It is estimated that the owners of the land have expended between \$10,000 and \$20,000 in exploratory work, and while their returns have been princely, they stood to lose considerable if the land turned out to be worthless mineral. They have made a big killing, and the transaction will call for attention to the Cuyuna range. There are some good judges of the Cuyuna who believe that it will prove another Mesaba, as far as the value of mineral deposit is concerned.

"Messrs. Carlson, Nelson and York are well known citizens at the head of the lakes. Mr. Nelson has been singularly fortunate in his mining operations, and like Mr. Carlson, was very wealthy before this new strike. Mr. York is vice president of the Iron River Logging company and also has extensive interests in mining.

"The extent of the ore body on the 120 acres of land which the gentlemen have loaned to the Inland Steel company is not yet known. But that is very large is demonstrated. Some of the drill holes which are several hundred feet in the ore body, have not fully penetrated it. One is 50 feet in ore and not through the mineral. The mineral runs better than 57 per cent in iron. The ore that is included in the estimate of probably 20,000,000 tons ranges from 55 to 63 per cent metallic iron. "Under the terms of the lease it is understood that the minimum on which the royalty is to be paid is 50 000 tons per year, beginning next spring.

"The Inland Steel Company is a large independent iron and steel concern, which has furnaces in Chicago, and which also owns or controls some iron mines on the Mesaba range."

FELL FROM WAGON

aged Erick Moberg is Picked up Unharmful From Wheels Last Night

Erick Moberg, aged over 75 years, fell from his load of hay three miles west of the city late last night and lay near the wheels of his wagon. The old family horse heard its master fall to the ground and missed his guiding hand. It stood patiently in the road for several hours and chattered for aid.

Coroner T. W. Gibson and Deputy Sheriff Claus Theorin were summoned and hurried to the scene expecting to find the dead body of the driver. He was lying unconscious from his fall, but unharmful by the patient horse. Mr. Moberg was taken to a local hospital and then removed to his home and is reported to be recovering from his night's experience.

CROSBY MEN VISIT CITY

Are all Believers in the Future of the Cuyuna Iron Range

M. F. Crosby, a prominent mining man interested in the development of the Cuyuna range and the town of Crosby, A. E. Brink, the owner of a large hardware store on the main street of Crosby, and I. C. Iverson, owner of a large general store and the postmaster of Crosby were in the city today transacting important business. They attended to legal matters.

In speaking of the enterprise and push shown by the new Cuyuna range cities Postmaster Iverson said: "We have a good town at Crosby. It is progressive and improving every day. We are glad to see Brainerd grow. We all realize that what helps your town and the range will in a corresponding degree aid Crosby. There is room for all of us on the range."

M. F. Crosby had nothing but words of praise for the manner in which the residents of Crosby have built up and improved Crosby. He spoke enthusiastically about the growth of the Cuyuna iron range and said few people realized what a great interest has recently been aroused in this new Minnesota range.

GRAY SPEAKS TONIGHT

Democratic Candidate for Governor Speaks at Opera House Tonight

James Gray, the democratic candidate for governor, accompanied by Ed. Peterson, state fire marshal of St. Paul, arrived in the city this afternoon and was entertained at luncheon at the Ransford by Messrs. Con O'Brien and James M. Elder. Many politicians and friends shook hands with Mr. Gray as he lounged a few minutes in the lobby of the hotel. He held a consultation with the above named gentlemen and with City Attorney M. E. Ryan, who is a member of the democratic state central committee.

At half past two this afternoon a party composed of Mr. Gray, Con O'Brien, William Coe and V. T. Bacon accepted Mr. Elder's proffer of his automobile and Mr. Elder took the democratic standard bearer and his party to Pillager, where he will deliver an address this afternoon. They will return early this evening.

At eight o'clock this evening Mr. Gray will speak at the opera house. In a short interview he stated that he would take up the subjects of the initiative and the referendum, the election of senators, and true conservatism. Col. C. D. Johnson will probably introduce this speaker.

Kills a Murderer A merciless murderer is appendicitis with many victims. But Dr. King's New Life Pills kill it by prevention. They gently stimulate stomach, liver and bowels, preventing that clogging and twisting appendicitis, curing constipation, headache, biliousness, chills, etc at all druggists. ts

Resolutions of Sympathy

At a regular meeting of Red Cloud Tribe No. 13, Improved Order of Red Men, held on Oct. 21st, the following resolutions were adopted:

Whereas, it has pleased our Heavenly Father in His infinite wisdom to remove from our midst our beloved brother, A. A. Armstrong, and Whereas, his sudden departure has awakened feelings of profound sorrow in the hearts of all who knew him, and,

Whereas, in his death this organization has lost a faithful and meritorious worker, a sincere and ardent supporter, be it

Resolved that the officers and members of this society hereby express their heartfelt sympathy for his sorrowing family in their bereavement and be it further

Resolved, that these resolutions be spread upon the minutes of the next regular meeting a copy sent to the family and one to the Brainerd Dispatch for publication.

Committee.

D. M. CLARK,
R. R. WISE,
JAMES J. JOHNSON,

TAUGHT HIM HOW TO DANCE

Fred Johnson, of Hackensack, Shoots His Friend Ban Fisher Through Calf of Leg

Ban Fisher, aged 55 years and unmarried engaged in a friendly altercation with his friend, Fred Johnson, at their home in Hackensack, north of Brainerd yesterday afternoon. Johnson had been walking along the railway track and his wife sent Fisher down to bring him home.

He escorted him home and Johnson, in a friendly way as they used to do out west in the early days, got his 22 revolver and emptied it at the feet of his friend Ban. Fisher danced a lively lively two step to escape the fusillade of shots.

When this gun was emptied Johnson took down his 32 revolver and continued teaching poor Ban some additional dance steps. One of these shots went too high and the bullet passed through the calf of Ban Fisher's leg and terminated the dance. The injured man was brought to Brainerd last night and is resting easy at St. Joseph's hospital. Ban says he freely forgives his friend and that he will not retaliate by teaching Johnson some new steps.

FUNERAL OF SAMUEL G. HARRIS

Was a Resident of St. Mathias and Passed Away Friday Evening

The funeral of Samuel G. Harris, of St. Mathias township, whose death occurred late on Friday evening in one of the local hospitals of typhoid fever, took place on Sunday afternoon at the Union church in Daguerre Brook, and was one of the largest funerals ever held in that part of Crow Wing county. Notwithstanding his death was sudden and no time given to circulate his demise, there were 38 teams containing sympathizing friends that comprised the cortege and scores were unable to enter the church to listen to the obituary address which were given by the Rev. Walter J. Smith, the Sunday school missionary, and the Rev. Charles Fox Davis of this city.

The deceased was born in Laurence county Kentucky, March 21, 1859, coming to Minnesota May 1st, 1867. In 1880 he moved to Little Falls, at which place he resided for five years, settling in St. Mathias township on a homestead in 1885, at which place he resided for the past 25 years. In March, 1892, he was united in marriage to Miss Clara Gibson of St. Mathias, and to them were born six children, four boys and two girls, who are still living with the mother to mourn their loss.

Mr. Samuel G. Harris, the deceased, was much respected as a citizen of the highest worth with a fine sense of justice and kindness which won the admiration of all who knew him. As a farmer he proved himself to be one of the most successful, the finely cultivated farm upon which he worked so industriously in that community for the past twenty-five years is proof positive of the possibilities of the soil in that community when handled by a competent farmer. As a neighbor, citizen, farmer, father, husband, he will be much missed.

Mr. A. L. Sinclair conducted the funeral obsequies and N. F. Shannon, F. J. Wolvert, John Hagen, Con O'Brien, George Fleishhaker and Ole Anderson, were the pall bearers. The quartette rendering the music at the church comprised A. L. Sinclair, Mrs. A. L. Sinclair, Miss Jennie Holsapple and Mrs. Ole Anderson. The interment took place at Aiverside cemetery. The sympathy of the whole community is extended to the bereaved family.

LINDBERGH'S MAGAZINE

The Congressman Describes the Progressive Magazine he Will Publish in Brainerd

In an interview this morning Congressman C. A. Lindbergh, of the Sixth district, said in reference to the magazine which he is soon to publish at Brainerd: "The booklet is not to be a large publication, but I expect to make it very interesting and instructive and somewhat new in design. It is not to be patterned after any that I know about. I do not, however, undertake to describe it for I intend that its contents shall serve that purpose."

The first number will be issued in February. There will be ten issues a year, no numbers being published in the months of July and August. The new magazine will be conducted along progressive lines and will consider economic questions along practical and scientific lines.

Box 53, Deerwood.

STOMACH MISERY ENDS

No Indigestion, Gas, Sourness, Heartburn or Dyspepsia Five Minutes After Taking Diapepsin

The question as to how long you are going to continue a sufferer from indigestion, dyspepsia or out-of-order stomach is merely a matter of how soon you begin taking some Diapepsin.

If your stomach is lacking in digestive power, why not help the stomach to do its work, not with drastic drugs, but a re-enforcement of digestive agents, such as are naturally at work in the stomach.

People with weak stomachs should take a little Diapepsin occasionally, and there will be no more indigestion, no feeling like a lump of lead in the stomach, no heartburn, sour risings, gas on stomach or belching of undigested food, headaches, dizziness or sick stomach, and, besides, what you eat will not ferment and poison your breath with nauseous odors. All these symptoms resulting from a sour out-of-order stomach and dyspepsia are generally relieved in five minutes after taking a little Diapepsin.

Go to the druggist and get a 50 cent case of Pape's Diapepsin now, and you will always go to the table with a hearty appetite, and what you eat will taste good, because your stomach and intestines will be clean and fresh, and you will know there are not going to be any more bad nights and miserable days for you. They freshen you and make you feel like life is worth living.

HOME WEDDING

At Duluth Miss Lillian Brown Becomes Bride of R. C. Jamison, Well Known in Brainerd

The Duluth Herald of October 25th mentions the wedding of R. C. Jamison, an extensive operator on the Cuyuna iron range and well known in Brainerd:

"At a pretty home wedding last evening at the residence of Mrs. T. P. Brown of 1530 Jefferson street, her daughter, Miss Lillian Brown became the bride of Roscoe C. Jamison. The rooms were prettily decorated in southern smilax and palms and lighted with the soft glow of candles. The wedding music was played on the harp by H. J. Williams of the Minneapolis Symphony orchestra and before the ceremony Miss Gladys Reynolds sang "Calm as the Night."

"The wedding service was read by the Rev. A. W. Ryan of St. Paul's Episcopal church. The bride was attended by her sister, Miss Nellie Brown and the maid of honor and Mrs. W. H. Lamport of South Bend, Ind., was the matron of honor. Miss Florence Moore of Minneapolis, and Miss May Wylie of this city gowning in white lingerie gown and carrying a shower bouquet of violets stretched the ribbons for an aisle for the wedding party.

"The bride wore a gown of white satin with a court train and a veil of duchess lace. She carried a bouquet of white chrysanthemums. Her maid of honor wore white satin veiled in marquisette and carried a bouquet of lavender chrysanthemums. Mrs. Lamport was also gowning in white. The groom's attendant was Carl Zapffe, of Brainerd.

"At the reception which followed the assisting hostesses were Mrs. Wylie, Mrs. Edward Hazen and Mrs. Mille Bunnell and Miss Addie Smith.

"The out of town guests for the wedding were: Mrs. Moore of Minneapolis; Mr. and Mrs. Arthur Jamison of Spokane, Wash., and Mr. and Mrs. Carl Zapffe, of Brainerd.

"Mr. Jamison and his bride left for a southern wedding trip and they will be at home in this city on their return."

HIGH SCHOOL NOTES

Mrs. Perry Starkweather, of Minneapolis, Deputy State Labor Commissioner Addresses Pupils

On Wednesday Mrs. Perry Starkweather, of Minneapolis, deputy labor commissioner gave a very interesting talk before the pupils of the high school. She said that Minnesota stands alone in all of the states of the union in having a department for women and children. She said that we should have a gymnasium in our school and a class in domestic science.

Mrs. Starkweather said that a woman was higher, grander and nobler in her own home work than in any other position. Any work is drudgery if we are not masters of it.

It was also stated that girls should not go into the cities to earn a living. Her advice is, "Girls stay in your own homes, unless dire necessity requires you to go out into the world."

It is especially the duty of the senators and representatives to take care of the weaker half, of the little children and women who have to go out and earn their living.

She praised Brainerd for being one of the finest towns in Minnesota as far as the conduct of its children as a whole is concerned. It is the young people of the town that give it its good or bad reputation. It is especially the boys of the town that gives it its good reputation.

The negative side won in the debate on Thursday, in the American history class.

Miss Evelyn Pirie, one of the popular young sophomore girls, left for St. Louis where she is to live. We are sure that we all will miss Evelyn, and extend to her our wishes for a prosperous high school career in St. Louis.

There will be a regular debate before the debating society, Thursday. Resolved, "That an income tax is a desirable method of taxation." Affirmative, Wm. Twohey, G. Sirene, T. Nelstead. Negative, Ben Weber, L. Halladay, G. Ford.

Miss Pearl Smallwood, of Minot, N. D., and Irma Simmons, visited the high school on Thursday.

The Misses Valentine Hayes and Norma Brady visited the high school Friday.

All the members of the high school who were interested in rooting for Saturday's game, remained and a very efficient and helpful roster team was organized. E. Entriiken was elected roster king for the occasion.

The rooting in song by the high school girls, led and trained by Miss Hooper, added much to the pleasure and spirit of the football game last Saturday. The slightest gain was cheered by an appropriate verse of song and when the boys spirits flagged, they were encouraged by this rousing chorus:

Cheer for old Brainerd,
Brainerd must win,
Fight 'o the finish,
Never give in.
All do your best, boys,
We'll do the rest boys,
Cheer for victory.

The rooting was not only commendable because of the school spirit displayed, but because it added to the character of the game. The girls

Yes, More Coats Received by Express

There is one thing that you always find with us and that is newness. Every season witnesses the newest of the new with us. We are showing more coats, some with features which will appeal to you. It's most pleasing to find such style as we show and these styles cost you less than you will expect for the style and quality you receive.

"MICHAEL'S"

When You Think of a Corset, Think W. B. And when you think W. B. think of us

It's somewhat trite to tell you how attractive the new models are; all new models are more or less attractive. They are clean, fresh, new looking, and all women like these qualities. But when we tell you about these new W. Bs. we mean something REALLY new.

Sheathiness, that long slim sheathiness that you read so much about and see so many pictures of, is perfectly achieved when you wear one of these models. And it is not achieved at the expense of comfort and grace. There's everything in having it properly adjusted to your particular figure and your particular lines. There's something about the W. B. that seems to emphasize the good features of the figure and eliminate, or at least minimize, the defective ones.

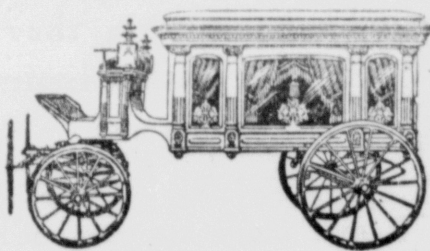

There's such a diversity of models and styles in the W. B. that it is no trouble to find a model suited to you. At \$1.00, \$1.50, \$2.00 and \$3.00 there are splendid W. B. shapes. And they hold their shape. Once properly adjusted and fitted, they afford more real comfort and grace of figure than any corset you can buy.

MUSIC AND DRAMA

"Daniel Boone on the Trail"

"Daniel Boone on the Trail" drew a fairly large audience at the opera house last night. The company carries a good band and its own orchestra and the melodrama, whose scenes are laid in Kentucky, was well staged and presented. S. A. Mitchell appeared as Daniel Boone and played his role well. Edw. Coleman played a fine flute solo during the progress of the play. Ollie H. Payne, as a colored character and Lena Lipps, as Elizabeth Zane, were capable actors.

In Sudden Emergencies

like illness, it is often necessary quickly to raise the temperature of a room. For instance, in those hours between midnight and dawn, when the day temperature has been allowed to drop, if you are called upon to get up, the room is chilly and cold. It takes a long time to start up a furnace or fire and raise the temperature by ordinary means.

You can instantly heat a room to any desired temperature with a

**PERFECTION
SMOKELESS
OIL HEATER**

Absolutely smokeless and odorless

It quickly gives heat, and with one filling of the font burns steadily for nine hours, without smoke or smell. Has **auto-matic-locking flame spreader** which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back, so the wick can be cleaned in an instant. It has a cool handle and a damper top.

An indicator always shows the amount of oil in the font. It has a filler-cap which does not need to be screwed down; it is put in like a cork in a bottle, and is attached to the font by a chain.

The burner body or gallery cannot become wedged, because of a new device in construction, and consequently it can always be easily unscrewed in an instant for reworking.

The Perfection Oil Heater is finished in japan or nickel. It is strong, durable and well made, built for service, yet light and ornamental.

DEPOSITOR LOSES HIS CASH

Daring Robbery in Gothenburg National Bank at Stockholm—Captain Amundson Explains His Change of Plans Regarding His Exploring Expedition—New Building at University of Copenhagen Dedicated.

***** SWEDEN. *****

A daring robbery took place in the Gothenburg National bank in Stockholm the other day, when one of the bank's well known depositors was relieved of 4,000 crowns in the twinkling of an eye. There were plenty of people in the bank at the time, but before any of them had time to look about the thief had made his way out through the front door and, in spite of the most vigilant search on the part of the detectives, he has not been found. He must have stood in the row of depositors and so skillfully did he take the pocketbook out of a side pocket of the depositor in question that when the latter ran his hand in his pocket to give the money to the cashier, it was not there. He had not even felt that it was taken away from him. A number of persons have been arrested, but the police feel almost certain that they have not got hold of the right man. There are some clever pickpockets operating in Berlin, Copenhagen and Stockholm and it is believed that the thief must be an international character.

The watering places and summer resorts in this country this year have been patronized by thousands of people and hotel keepers and others who are interested in looking to the comfort of summer guests have been doing a land office business. In Marstrand, Sweden's leading watering place, where King Oscar used to like to go so much, they have had an exceptionally large attendance, as well as in Stromstad, Lysekil and Stenungsund.

The tourist traffic, according to the directors of the Swedish tourist bureau, yielded the country an income this year amounting to at least 10,000,000 crowns. The tourist traffic in Sweden is coming into its own more and more and while Sweden has for years been behind Norway in this respect there is every indication that she will within the next few years become one of the leading tourist countries in the world.

There were in Sweden last year over 230,000 persons who received aid from the government. It is a noticeable fact that the number of poor are increasing in the cities, while it is growing less in the country districts. The government expended 23,000,000 crowns for the poor last year and will most likely have to expend a similar amount this year.

There are 25,277 children registered at the public schools in Stockholm. This shows an increase of seven over last year. The public schools in Sweden are known to be the best in Europe and the efficiency of the teachers is unquestioned. No one is allowed to teach in a public school in Stockholm who is not a college graduate.

Prince Eugen, the artist prince, has returned to Stockholm from Dalarna, where he had spent the summer. He has been busy with his brush and will finish some of his paintings in Paris this winter. This prince is not interested in political affairs or the military whatever.

The lingon berry crop this year is not nearly so great as it was last year and only about 828,642 kilograms have been exported to foreign countries. Last year there were 1,333,711 kilograms exported. The lingon berries are exported principally to England and America.

Baron Cederstrom is the hero of the hour in Stockholm since the aviation week, when he made a successful ascent, rounding the Djurgarden and passing over Strandvagen. The aviation meet in Stockholm netted the managers 5,000 crowns.

A bust of the great temperance leader, Per Wiselgren, was unveiled in front of the cathedral at Gothenburg the other day in the presence of a large number of relatives, friends and admirers of the deceased leader.

Anna Britta Svensson celebrated her 105th birthday the other day. In spite of her advanced years she is still enjoying excellent health. She is now the oldest living woman in the country.

The Gothenburg museum will celebrate its fiftieth anniversary next June, on which occasion great festivities will be arranged for.

***** NORWAY. *****

The much talked of Amundsen letter has at last been made public. It will be remembered that not long ago Amundsen's friends fitted him out for a North polar expedition, which was to cover a period of at least seven years, but now a letter has followed, dated at Madeira, in which Amundsen

explains his determination to investigate the South polar regions instead. The letter reads as follows: "From Madeira the Fram will sail south for the Antarctic regions to participate in the race for the discovery of the South pole. It would at first glance seem peculiar that I have decided to make this sudden change in the route originally mapped out, but I have come to this conclusion after much careful consideration. I have all alone decided to go south instead of north and alone I will stand the responsibilities. A number of the members of the ex-

pedition wish to land and return to Norway, but a number again stand ready to make the long journey southward." Together with those who have decided to remain with the expedition Amundsen will start in search of the South pole and will lead the sleigh expedition over the ice fields in person. By February, 1912, Amundsen calculates to be back at Lytleton, from whence the first communication can be sent. Professor Fritjof Nansen expresses faith in Amundsen's determination to reach the South pole and gives it as his opinion that he will succeed, barring, of course, all accidents. Professor Nansen also approved of Amundsen's decision to change his plans and Amundsen's friends who backed the expedition are now satisfied with the change of programme, although there were many of them who were disappointed when they learned that he was going in the opposite direction.

A cruel murder occurred in Hauge-sund the other day when a sixteen-year-old boy killed a nineteen-year-old apprentice at a shoemaker shop by running a long knife into his breast, the edge of which pierced the heart. The name of the unfortunate young man who was murdered was Severin Elde. The sixteen-year-old murderer, whose name is Austen Gaa, has been placed under arrest and his trial will occur during the latter part of November.

The remains of Johan Selmer, the composer, arrived from Italy Sept. 28 and were interred in the cemetery of Our Saviour's church in the presence of hundreds of friends and admirers. Among those who attended the funeral and placed floral wreaths on the coffin were King Haakon and Queen Maud.

The statues which Emperor William has ordered to be erected in Balestrand as a gift to the Norwegian people will prove expensive affairs. The statues and the expense of erecting them will amount in round numbers to about 225,000 crowns.

Sivar Tonnessen, the notorious thief who was arrested in Uddevalla some time ago, attempted to make his escape from the government prison in Christiania the other day, but failed in his attempt.

Norwegian sailors have organized a national socialistic organization and held a big meeting the other day which was attended by 300 sailors. The organization effected will be permanent.

The wireless telegraph station has now been started and it gives splendid connections with the entire coast line. This station will be of immense value to the shipping industry of Norway.

Dr. Ulrik Bugge, for many years a practicing physician in Christiania, died the other day at his home in that city, aged sixty-seven years.

***** DENMARK. *****

The Student Forenings new building was dedicated Oct. 1 in the midst of great ceremonies. The festivities began at 2 o'clock p. m., in the presence of the crown prince, all the members of the faculty, "honorary" scores of friends of the institution and hundreds of students. Attorney Harboe delivered the dedicatory address, after which followed addresses by the crown prince, the rector of the university, Professor Carl Salomonson, and others. In the evening a great reception was held, in which at least 500 students participated. The evening's programme wound up with a popular dance, in which about 200 couples participated. The new students' home is a fine building, consisting of a great library, clubrooms and an assembly hall and has been erected at an expenditure of 350,000 crowns. It has taken years to collect this money, but at last the students of the University of Copenhagen have a home of which they can well feel proud. In the future there will be lectures from some of the leading educators of Europe in this building and it will also be the home for the great male chorus events, which are so popular in the Scandinavian countries.

The loss of an entire cargo of fish occurred Sept. 30 on the North sea, when a schooner was accidentally set on fire. The crew fortunately managed to save themselves, but the vessel sank with all the fish on board. The interesting part of it was that all the fish were alive and there is not a great deal of fears expressed regarding their present condition.

The Limfjord oysters are in great demand and the Limfjord Oyster company is receiving orders from England, Scotland and Germany and is not able to fill them all. There is a flavor to the Limfjord oysters which are hard to beat and they now have the reputation of being the finest and best in all Europe.

There are 2,674 homeless children in Copenhagen. The charity societies are doing all in their power to care for these children, but there are not funds enough at present to provide for them throughout the winter months. It is proposed to start a popular subscription in their behalf.

MARION S. NORELIUS.

A Promise.

"Pa?"
"What is it, my child?"
"When sis marries that lord will I have to call her 'your ladyship'?"
"It will not be necessary for you to do so, but it will be very nice if you care to."
"All right. Maybe I won't always do it, but I'll promise not to call her 'punkin' face' any more, anyhow."—Philadelphia Record.

Here is Your Chance

If you want to get a stove at rock-bottom prices.

During the time that we have been in the storage business over 150 stoves have accumulated in our store house. We have been instructed by the various owners to sell these for the storage due on them. They must positively go before we move into our elegant new quarters in the "Iron Exchange" building.

The prices range from

\$2.50 to \$20.00

GENERAL OUTFITTERS, UNDERTAKERS and EMBALMERS, PLUMBERS and STEAM FITTERS

The Oldest Libraries.

The oldest libraries of which we have any certain knowledge are those brought to light by excavations among the ruins of the east. Among these are the Babylonish books inscribed on clay tablets, supposed to have been prepared for public instruction about 650 B. C. It is said by Aristotle that Strabo was the first known collector of books and manuscripts. This was about the year 330 B. C.

Reaching the Top

In any calling of life, demands a vigorous body and a keen brain. Without health there is no success. But Electric Bitters is the greatest health builder the world has ever known. It compels perfect action of stomach, liver, kidneys, bowels, purifies and enriches the blood, tones and invigorates the whole system and enables you to stand the wear and tear of your daily work. "After months of suffering from kidney trouble," writes W. M. Sl. rman, of Cushing, Me., "three bottles of Electric Bitters made me feel like a new man." 50c at all druggists.
